

Student Involvement

The documents in the Student Involvement Portfolio can be used in their entirety or individually, and are an important step in the development of student self-advocacy. The intent is that the student creates a packet of information related to albinism and its implication on visual access to be shared with teachers. This can be done independently or with support from a parent or TVI.

The portfolio can be in any media format. Some examples include a 3-ring binder, a multimedia slideshow, a simple folder, or a collection of electronic documents linked to a shared location.
