

A Research Study about Racial Identity Development in African American with Albinism

Research Description & Purpose: Researchers at the Michigan School of Psychology want to learn about how racial identity is developed in Black people with Albinism. This research study is for adults aged 18 and over. Research is always voluntary!

Would the study be a good fit for me? This study may be a good fit for you if:

- You are at least 18 years old
- You identify as Black/African American
- You have Oculocutaneous Albinism
- You are willing to participate in a 1-2 hour interview to share your experience.

What would happen if I took part in the study? If you decide to take part in the research study, you will have a phone screening prior to your interview to ensure that you are a good fit for the study, and then a virtual interview that would be recorded for later transcription.

Participants who take part get a \$20 Amazon Gift Card to thank them for their time.

This research will take place virtually through Zoom.

Contact Information: To take part in this research study or for more information, please contact Jasmyn Irvin at 313-444-3791

PI Name, department & address: The principal researcher for this study is Jasmyn Irvin at the Michigan School of psychology. Study IRB#: 220902
