

FREE Tele-Support Group for

Parents of Children with Albinism

- Who:** Parents or guardians of children with Albinism
When: Third Thursday of the month • 8:30 pm EDT
Where: Zoom or Phone
Facilitator: Megan Pitt, LMHC

When your child is diagnosed with a rare condition that can impact their vision, you may feel lost and alone, and unsure of what your child needs.

Our free National Tele-Support Group for Parents of Children with Albinism connects you with other parents whose children have albinism, to share resources, experiences, and celebrate milestones.

Discussion topics include the impact on vision, orientation and mobility, advocacy, IEP's, assistive technology, and more!

Meetings are held year-round, and whether you want to actively participate or simply listen, you're welcome to join us at any time. You're not in this alone!

Register at lighthouseguild.org/support-services/telesupport-groups/enroll-in-a-telesupport-group/ or call **212-769-6318**. After completing your pre-enrollment form, you will be contacted by the facilitator with more information.
